**RE: Recycling Service Contract Renewal
FXB File No. PA1372-32**

Dear Mr. Ernst,

F. X. Browne, Inc, a Division of Bogia Engineering, Inc., is pleased to provide you with a proposal for the completion of the Borough's Act 101 recycling grant application for the 2025 recycling program. Our scope of work is presented below.

1.0 Scope of Work

The proposed scope of work includes the completion of the annual Montgomery County Recycling Report, documentation of 2025 tonnages, application for an Act 101 (Section 904) Municipal Recycling Program Performance Grant, preparation of a year-end report for Lansdale Borough, and development of quarterly news articles.

The scope of work consists of the following tasks:

<u>Task</u>	<u>Description</u>
1	Complete Montgomery County Recycling Report
2	Document Residential and Commercial Recycling
3	Complete/Submit the Section 904 Recycling Grant Application
4	Prepare the Year-End Report
5	Develop News Articles
6	Project Administration

Task 1 - Complete Montgomery County Recycling Report

The Montgomery County Planning Commission requires that the Borough submit a recycling report to them in March 2026. We will prepare the required report and submit it to the Montgomery County Planning Commission by the due date. We will send a copy of the report to the Borough. We will send a letter and one county reporting form to each hauler operating in the Borough, and we will contact businesses in the Borough that may recycle privately. Once the recycling data has been received, we will record all tonnages on the County form and send it to the Planning Commission.

Task 2 – Document Residential and Commercial Recycling

Although the county report requires only an estimate of residential and commercial recyclable material, completion of the Section 904 Recycling Performance grant application requires more extensive documentation of all tonnages collected in 2025. A letter with a detailed explanation of reporting requirements will be sent to each hauler in order to obtain proper documentation. Our experience indicates that multiple mailings and several phone calls have been required in the past to obtain valid documentation. We will track all reports received, verify that the received documentation is valid, properly file each document, and use the information obtained to complete Task 3.

We will also contact local businesses that use private haulers to obtain recycling information that may not be collected by the regular haulers. These businesses will be contacted along with haulers and asked to provide information on materials recycled as well as the hauler used to ensure that we do not receive duplicate information. Information collected from local businesses will be used to complete Task 3.

Task 3 - Complete and Submit the Section 904 Recycling Grant Application

Using the submitted reports, current census population data, and properly documented commercial and residential records, we will complete the Act 101, Section 904 Municipal Recycling Program Performance Grant on behalf of Lansdale Borough. The completed application form will be submitted to the state by the stated deadline.

F. X. Browne, Inc. will verify that the Borough is in compliance with the requirements of Act 101 while completing the Section 904 grant application. Compliance with the provisions of Act 101 is critically important to the DEP, and non-compliance could impact whether the Borough will be eligible to receive the Section 904 grant. F. X. Browne, Inc. will identify areas in need of improvement in order to meet Act 101 requirements.

Task 4 - Prepare the Year End Report

A year-end report will be prepared based on the information obtained from the haulers and the application completed for the Department of Environmental Protection. The Year End Report will document our activities and will contain copies of the County Report and the 904 Grant Application. It will also include an estimate of the proposed grant amount for the 2024 recycling program.

Task 5 – Develop News Articles

We will develop two news articles for publication by Lansdale to meet the educational requirements of Act 101. Each article will summarize the basic requirements of Act 101 and contain recycling news and facts for the public.

Task 6 – Project Administration

Phone calls and other administrative costs related to the project (e.g., copies, communication letters, and postage) are included in this task.

2.0 Project Costs

F. X. Browne, Inc. can perform Tasks 1-6 for a fee of \$7,500.

3.0 Project Schedule

We can begin work on this project immediately upon receiving notice to proceed from Lansdale Borough. Please sign and return the acceptance agreement below.

If you have any questions or comments, please contact me.

Sincerely,

F. X. Browne./Bogia Engineering, Inc.

WHEREAS, the Borough of Lansdale through its Police Department issued a Request for Proposals ("RFP") from interested and qualified providers for qualified providers to collaborate on the provision of a Co-Responder Program, which Program would provide behavioral health intervention, de-escalation resources, referrals to ongoing care, and other related services in an effort to reduce unnecessary use of the 911 dispatch system when a behavioral health staff member responds alongside police officers to calls for service which may present mental health or substance abuse components; and

WHEREAS, Merakey responded to the RFP and, based on a review by and a recommendation from the Lansdale Police Department of Merakey's response, the Borough Council for the Borough of Lansdale voted to approve an award and contract with Merakey to provide professional services for the Co-Responder Program; and

WHEREAS, as part of the Co-Responder Program professional services to be provided, the Parties, recognize that: (a) there is a need for a collaborative approach to address situations involving individuals experiencing mental health crises; (b) effective communication, coordination, and mutual understanding between their respective organizations is important to the Program's success; and (c) part of the Program's intended purpose is to promote the safety, well-being, and appropriate care of individuals with mental health challenges within the Lansdale community; and

WHEREAS, Merakey has had a full opportunity to read and review the RFP and this Agreement including all exhibits, and, by executing this Agreement, hereby agrees to all terms and conditions of the RFP and this Agreement, which terms and conditions shall be deemed incorporated as part of Merakey's response submission to the RFP; and the Parties now desire to enter into this Agreement for Professional Services.

Dear William Kiger, President, CEO of Pennsylvania 811,

The Borough of Lansdale recognizes April 2026 as “Pennsylvania 811 Safe Digging Month”, and the initiative sponsored by Pennsylvania 811, a utility notification information center with 54 years of continuous service to the Commonwealth of Pennsylvania.

We support the mission of Pennsylvania 811 to promote safety and prevent damage to underground facilities. We also acknowledge Pennsylvania 811 received a million excavation notifications in 2025, over 30,000 construction projects in Coordinate PA, and transmitted approximately 6 million notifications to their member facility owners and operators allowing essential utility and construction crews to provide vital underground services and repair of critical infrastructure to communities throughout Pennsylvania.

We are aware safe digging is a shared responsibility among excavators, homeowners, and facility owners. We will promote “Pennsylvania 811 Safe Digging Month” as a reminder to all people who excavate or dig to contact 811, three business days before digging; to have the approximate location of their utility lines marked for this process helps prevent injuries, property damage, and inconvenient utility outages.

We will encourage safe digging practices in Pennsylvania, in support of the Pennsylvania Underground Utility Line Protection Law, PA Act 287 of 1974, as amended, by recognizing April 2026 as “Pennsylvania 811 Safe Digging Month”. We will encourage everyone to visit the Pennsylvania 811 website at www.paonecall.org for information about digging safely.

Dear Jason:

Remington & Vernick Engineers (RVE) is pleased to submit this proposal to provide bidding and construction management services associated with the West Third Street & Edgemont Avenue ADA Curb Ramps and Paving project. The survey and engineering design have been previously completed for this project and a copy of the design and cost estimate have been delivered to the Borough. We understand that the Borough would like to utilize PennBID to publicly bid the West Third Street & Edgemont Avenue ADA Curb Ramps and Paving project. It is our understanding that the Borough will be providing full-time in-house inspection staff that will perform oversight of the project during construction.

The scope of work for the bidding and construction management services is described herein.

TOTAL PROJECT COST

RVE's total fee for providing the engineering services described above is the Not-to-Exceed amount of **\$17,950.00**. Per our original proposal, our total Not-to-Exceed fee for engineering services for this project was \$45,300.00. The addition of this addendum would increase our total not to exceed fee to **\$63,250.00**. The total Not-to-Exceed budget will not be adjusted without the prior approval of the Borough for the additional costs associated with a specific change in the scope of work.
