Andrew Carroll, Chairperson  
Garry Herbert, Councilman  
Meg Currie Teoh, Councilwoman  
Joe Green, Fiber Optics/Meter Foreman

Members Absent

Andy Krauss, Electric Superintendent

Attendees: Contance Lezenby, Lansdale EAC

Committee Business Items

1. Minutes of December 3, 2025 Electric Committee Meeting were approved by a vote of 3-0.
2. PPL Relay Replacement Project Update – This project is in the final stages. We need to test the CT's and do a final operation of breakers while PPL is present.
3. EAC/LCAP Presentation - Constance Lezenby presented the DEP Penn State LCAP services offered for 2026.
4. Department Operations – Trees were trimmed by the Silk Factory, and the Rex solar tie is underway. We are finalizing the maintenance agreement for the primary lines and pole line that we installed. Remaining 1500 meters should be swapped out by end of March. The crew are waiting to install the 34 KVA switch at Fifth Street Ball Park until the weather breaks since they will need to drive on the field. There is a meeting at the Irby Warehouse to go over the material to be added to the Storm Trailer for PMEAs. Final touches are being added to the Call Center.
5. New Business - PPCA was added to electric bills. This number will change every month to be positive or negative. It is the difference between what we bought in power and what we sold in kWh among other factors. The purpose is to make the borough whole. It was built into the 15% increase. The first half of the year will be credit, and the second will be debt. The PPCA this month is  $-\$0.01653$  per kWh.

Meeting Adjourned.
